

FM Global Fire Prevention Grant Program

Frequently Asked Questions

Who is eligible?

Any organization or agency around the world that supports fire prevention can apply for an FM Global Fire Prevention Grant; however, funds must be used for public purposes. Additional terms and conditions may apply for applicants based in the [United States](#), [Canada](#) and [other countries](#).

Where is the application?

After submitting your online request, a message will appear that confirms the receipt of your information. The application will then become available, which must be downloaded by clicking on the provided link and choosing "Save As" from the "File" menu. Please fill out all fields within the application and mail back to the address provided below.

What can I apply for?

Funding requests will be considered to help support organizations working to combat fire for a wide array of fire prevention, preparedness and control efforts. Some examples are provided in each category below to use as a guide:

- Pre-fire planning for commercial, industrial and institutional facilities (e.g., computer software programs, laptop computers)
- Fire/Arson prevention and investigation (e.g., juvenile firesetter programs, continuing education courses, digital and specialized cameras, air-sampling devices)
- Fire prevention education/training programs (e.g., community outreach initiatives, workshops)

What are the qualities of the most successful applications?

Applications that clearly demonstrate a need for funding that will have a significant impact on preventing commercial and industrial fire loss are acceptable. It is also important to provide plenty of detail and documentation in your application to support your request.

How much should I apply for?

Although there is no limit on how much funding you can apply for, this grant program is designed to provide seed money to help support your fire prevention, preparedness and control efforts. Funding requests for salaries, motor-powered vehicles (fire apparatus, automobiles), building projects and equipment or training related to fire suppression, for example, will not be considered. To see the most recent requests and awards please [click here](#).

Do I need to provide matching funds?

Matching funds are not required but sometimes only partial funding of a request will be awarded. Applicants may need to contribute additional funds to supplement their award.

When is the deadline for submitting my application?

There is no deadline for submission; however, grant applications are reviewed quarterly.

How are decisions made about my grant?

All grant applications are reviewed by a committee consisting of a diverse group of FM Global property loss prevention experts and members of the public fire service community to ensure funding is awarded where it will make the most difference.

When can I reapply for funding?

For past awards, grant recipients may reapply for funding three years from the date of their initial award letter. For applications that did not result in a grant award, applicants may reapply for funding one year from the date of their notification letter.

Where do I send my completed grant application?

Grant applications should be mailed to:
Fire Prevention Grants
FM Global
1301 Atwood Avenue
P.O. Box 7500
Johnston, RI 02919

Can I submit my application electronically?

At this time we do not accept electronic applications. You may complete your application and provide the necessary signatures then scan it and email it to firepreventiongrants@fmglobal.com. Applications received without signatures are considered incomplete.

What if I have questions about my grant application?

If you have questions about your grant application, please contact us at: firepreventiongrants@fmglobal.com.

Eligibility Requirements

For applicants based in the United States:

Applicants must be a governmental unit of a city, town, county, state, commonwealth, the District of Columbia, possession of the United States, the United States itself or any political subdivision as described in Section 170(b)(1)(A)(v) of the U.S. Internal Revenue Service Code or a 501 (c)(3) tax-exempt organization under the U.S. Internal Revenue Service Code.

For applicants based in Canada:

Applicants must be a governmental unit of a city, town, county, province, territory, Canada itself, or any political subdivision thereof or a registered charity under Section 149(1)(f) of the Income Tax Act of Canada.

For applicants based in any country other than the United States and Canada:

Applicants must demonstrate that their organization operates exclusively as a fire service unit, or a national, state, regional, local, or community organization that supports fire prevention under the laws of the country in which the organization is located.

The laws and customs applicable to the grantee organization must not permit any of its income or assets to be distributed to, or applied for the benefit of, a private person or non-charitable organization other than pursuant to the conduct of the grantee organization's fire prevention activities, or as payment of reasonable compensation for services rendered or as payment representing the fair market value of property which the grantee organization has purchased.

The grantee organization has no shareholders or members who have a proprietary interest in the income or assets of the organization.

The laws and customs applicable to the grantee organization do not permit the organization, other than as an insubstantial part of its activities to engage in activities that are not for religious, charitable, scientific, literary, or educational purposes; or to attempt to influence legislation, by propaganda or otherwise.

The laws and customs applicable to the grantee organization do not permit the organization directly or indirectly to participate or intervene in any political campaign on behalf of, or in opposition to, any candidate for public office.
